

Moving Researchers for Pediatrics

FAQ

1. Who is eligible to apply as Principal Investigator (PI)?

Given the vast diversity of the international types of contracts , any researcher holding a contract with a foreign research institute for research activities during all the last 12 months is eligible to apply as PI, regardless of the type of contract .

We suggest to attach a copy of the actual contract to the *Curriculum* form, in order to allow the Foundation to evaluate the eligibility as PI of the project.

2. Is there a deadline for the start of the granted projects?

The Foundation will give priority to the most feasible projects with a starting date before September 2020.
